

TcIB-like inhibition of cell division or resistance to colicin (CDS_0037)

DNA polymerase exonuclease subunit (CDS_0041)

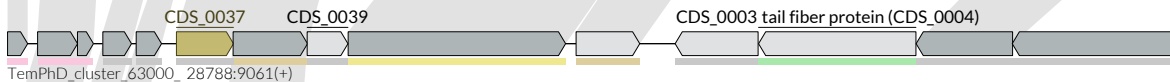

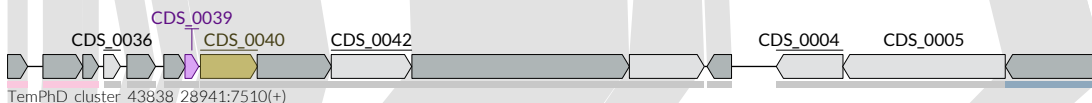

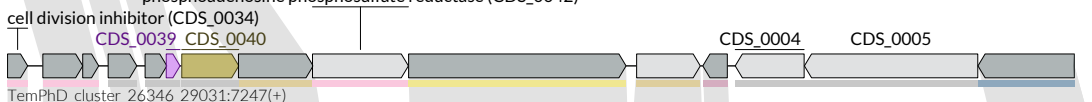

tellurite resistance (CDS_0036)

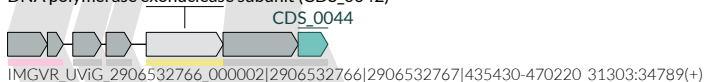

POM family subclass B3 metallo-beta-lactamase (NF000438.2) (CDS_0039)

phosphoadenosine phosphosulfate reductase (CDS_0042)

DNA polymerase exonuclease subunit (CDS_0042)

DNA polymerase exonuclease subunit (CDS_0039)

6000 nt

DNA, RNA and nucleotide metabolism head and packaging moron, auxiliary metabolic gene and host takeover other tail transcription regulation unknown function Defence
